

# L20

## L20: effort-free cleaning

L20 is the easy but reliable walk-behind floor scrubber that allows increased productivity and reduced cleaning costs. Characterized by compact dimensions, it's the ideal model to achieve professional cleaning results and reduced costs of ownership in supermarkets, commercial areas in general, schools, gyms, warehouses, workshops and garages.

Designed to ensure the greatest reliability and user-friendliness in daily operations, L20 is suitable for maintenance cleaning on floors up to 1800 sq.m.

### THE ADVANTAGES OF L20

- Intuitive driving and simple controls
- Compact dimensions for easy transport from one place to another
- Great productivity and reduction in costs of ownership
- Brush head made of aluminum to protect the scrubber dryer against corrosion
- Reinforced plastic squeegee for resistance to impact and corrosion
- Automatic squeegee uncoupling system to protect it against accidental impact
- Handy cleaning solution level indicator tube
- It's ready for use straight away in a few simple steps, making it suitable for even the least experienced operators
- Easy, quick maintenance at the end of a job
- Easy to move from one place to another thanks to the third rear wheel
- Stop&Go: when the machine is temporarily idle, the solution flow is interrupted and the brushes are halted so as to optimize consumption and reduce waste

L20 B  
Battery version with disc brush

L20 E  
Cable version with disc brush

## Easy to use, transport and sanitise

L20 is fitted with a squeegee in a reinforced plastic material that is corrosion resistant. The automatic uncoupling system protects the squeegee when accidentally impacted.

### SOLENOID VALVE (standard)

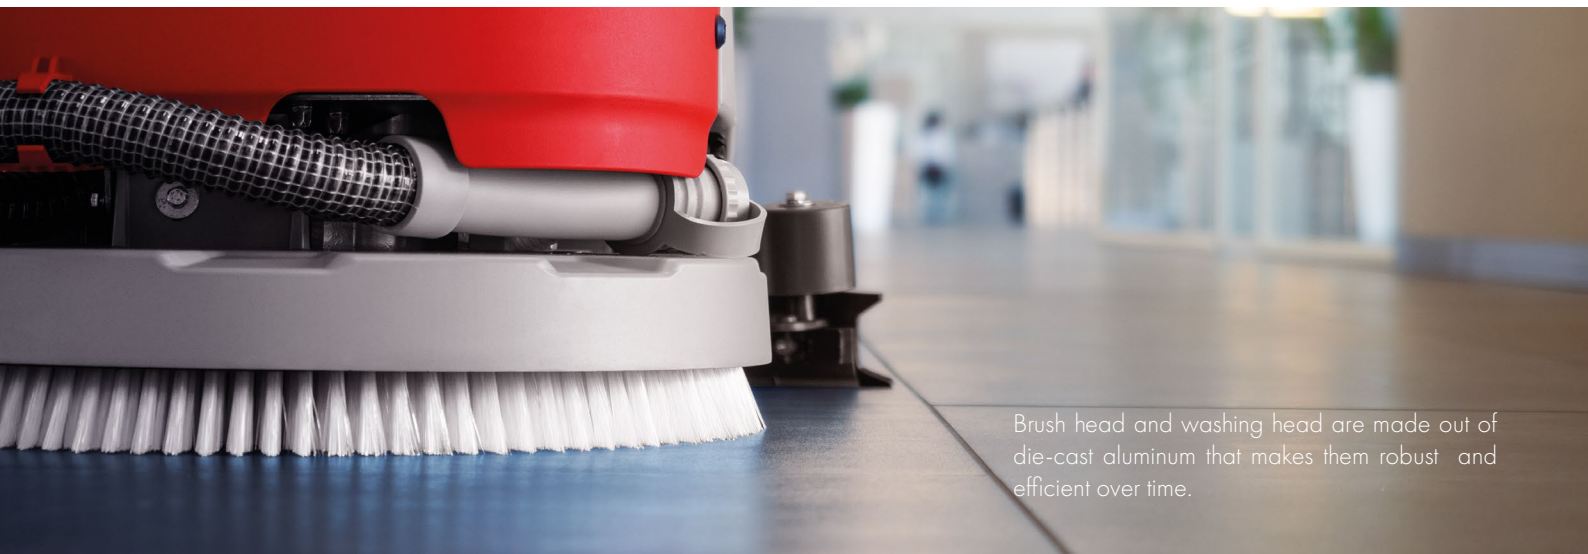

The solenoid valve automatically stops the flow of water when the machine is not working or is stopped by the operator.

### BATTERY VERSION

L20 B can work for up to 1 hour over a surface of 2000 sq.m. with a single tank of detergent solution. Up to 2 hours autonomy with a single energy charge.

On request, the L20 B can be fitted with on board battery charger, so that recharging operations are quick and simple to perform.

Brush head and washing head are made out of die-cast aluminum that makes them robust and efficient over time.

STANDARD EQUIPMENTS	L20 B	L20 E
<b>Comfort</b>		
Hour meter	•	•
Ergonomic squeegee handle	•	•
Squeegee rubber blades usable on 4 sides	•	•
Color-coded parts for easy maintenance	•	•
Transparent filling hose with drop-stop	•	•
Water level indicator	•	•
<b>Safety</b>		
Antiskid wheels	•	•
Stop&Go	•	•

OPTIONAL	L20 B	L20 E
CB (On-board Battery Charger)	•	-
